

# Guttman Certified as a Woman-Owned Business

[guttmandev.com](http://guttmandev.com)

**Guttman Development Strategies proudly announces that we are now a woman-owned business, fully certified by the National Women's Business Owners Corporation ("NWBOC"), which provides corporations with the ability to improve their procurement practices. The shift will support our clients' efforts to meet diversity requirements.**

Continuing to serve as CEO of Guttman Development Strategies, Jackie Guttman is responsible for finance and business operations, while Howard M. Guttman continues to serve as principal, responsible for leading our consulting work and for management of Guttman's team of consultants. Together, Jackie and Howard share in the evolution of the firm's intellectual capital, product development, and marketing and public relations.

GDS remains steadfast in our dedication to helping clients create high performing, horizontal organizations and teams. As a newly certified woman-owned business, we would welcome any questions you may have about how this change might impact your organization.

Regards,

**Jacqueline Guttman, CEO**

**Howard M. Guttman, Principal Consultant**
